

Wow! hasn't 2020 has turned out to be a tumultuous year for all of us. COVID-19 has certainly thrown up a few new challenges for boat owners. At first we had self-isolation, then social distancing and border closures, hopefully we have seen the worst of it, maybe now we can get on with some boating and fishing.

Club Fees – Date change announcement

The committee has decided that due to various issues related to the COVID-19 we will postpone fee cycle to now be due 1st October a delay of 3 months at no cost to members. The cycle will now be annually October to September as an ongoing cycle.

A reminder and invoice will be sent to members at the end of September.

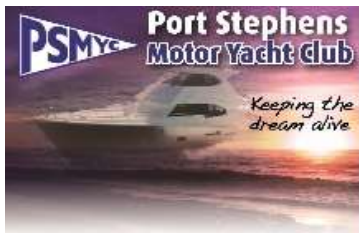

Coming and goings

The current extreme situation has created some interesting situations. Shane and Deb (**RUMOURS**) and Bob and Liz (**ELUSIVE**) have spent the last 2 months isolating at AKUNA Bay in the Hawksbury. Unfortunately, when Bob and Liz returned to the home world it seems that Bob had lost his stable land legs and suffered a fall damaging parts that even with Bobs panel beating skills could he not fix and did require being towed to the Mater Hospital for repairs. We wish him a speedy recovery in the care of "Lucky Liz".

Mark and Raidah (**AKOYA**) were alert to the possibility of new lockdowns approaching in Victoria and relocated on board to spend their time in Nelson Bay, great timing.

As soon as the starter waved the flag to open Queensland borders Eric and Janelle (**BULLEYE**) and George and Deb (**MYRTLE**) headed of north like startled gazelles looking for greener pastures, enjoy your journey.

After spending so much quality time together in quarantine in Peru followed by a luxury budget flight to Australia and then more close togetherness in quarantine in Australia Peter and Narelle (**KAOS**) are heading to Mooloolaba and Fraser Island for 3 months when they are sure they won't get caught in quarantine again as there is only so much togetherness that's good.

Don and Suzanne (**HALCYON VI**) are heading to Tassie in the spring for an extended voyage. Let's hope the borders are open for your adventure.

It has been observed that during the lockdown many members who hadn't fished for some time or never fished suddenly became very keen boating fisherman when it was OK'd that fishing was considered exercise. We are sure that all enjoyed the fruits of their efforts!
